

Hulme Hall Grammar School

◆Caring ◆Nurturing ◆Achieving

Senior School Newsletter

27th March 2020

It has certainly been a very different week and we want to take this opportunity to thank you for all your messages of support.

From the work that is being sent to teaching staff, it is clear to see that pupils have been working very hard and the standard remains high.

We thought we would use the newsletter to show you exactly what our staff and pupils have been doing in the last seven days. Please keep sending pictures to marketing@hulmehallschool.org so that we can share them on social media and add them onto the website. Wishing you all a safe and healthy week.

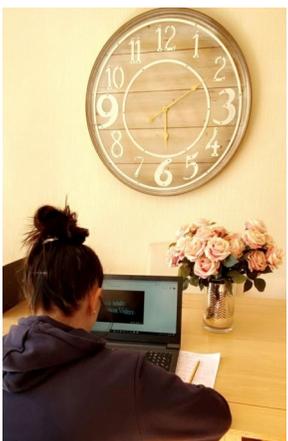

New Members of the Team

Our teaching staff had new work buddies this week as they started working from home. Their furry friends have yet to learn about social distancing and hard work but we're hoping they will get the hang of it soon!

English Star

Well done to Lexie, from Year 10, who had completed her English task before 9.50am and got full marks on both her answers earlier in the week! Lexie only joined us five weeks ago and she is already impressing her teachers! Keep up the good work!

Whilst Miss Lucas was busy looking for online fitness videos to keep Hulme Hall fit and healthy, Sam T from Year 9 came up with a new sport—Foot Tennis!

We really like the sound of this and think we might have to try it out once we all get back to school!

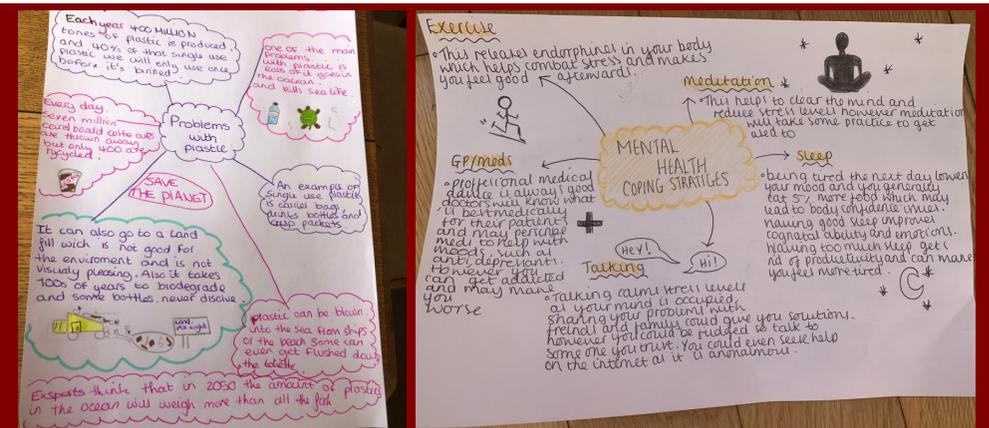

Mr Dean Grierson, Headmaster

Feeding the Family

Mrs Norman tasked our Year 7s with creating a meal for their family and by the looks of it, they did a really good job! Some future chefs in the making maybe?!

Mind Maps

Pupils from across the year groups have been working on mind maps of various themes.

India from year 8 created a very thought-provoking piece of work on the *Problems with Plastic*, whilst Izzy in Year 10 talked about coping strategies to improve mental health. This could not be a more apt topic at the moment when we are all having to deal with isolation. Izzy highlighted the importance of sleep, exercise and talking—some great advice that we should all take on board.

Staff have been putting together a list of useful links to support home learning and wellbeing and Mr Corker has created a page on the website dedicated to remote learning. <https://www.hulmehallschool.org/remote-learning/>. Have a look and feel free to share any links that you are finding useful.

Our Pre-School children have been enjoying an online link to Joe Wicks' daily workout at 9am every week day. If you haven't already logged on, it is a great way to motivate you before you settle down to some work!
